TECHNICAL DATA

/// C-MAG HS 7 control, Ident. No. 0020002694

Max. stirring quantity	20 l	Max. stirring bar length	30 – 80 mm
Motor rating output	9 W	Adjustable safety circuit	100 – 650 °C
Speed range	50 – 1.500 rpm	Set-up plate material	Glass ceramic
Heating output	1.000 W	Set-up plate dimensions	180 x 180 mm
Heating temperature range	RT – 500 °C	Dimensions (W x D x H)	220 x 354 x 88 mm
Heat control	Turning knob	Weight	4 kg

C-MAG HS 7 control

/// The new magnetic stirrer

The C-MAG HS 7 control magnetic stirrer features a square ceramic heating plate. It can stir up to 20 l (H₂O) and has a speed range of 50 to 1500 rpm.

The lifetime warranty, offered with this product, reflects our belief in the quality of this new magnetic stirrer. Because of its reliability, scientists are now able to concentrate more intensely on their work and experiments.

IKA uses hardened glass for the control panel not only due to its particular safety and resistance to chemicals, but also to introduce an entirely new look to the range of magnetic square top hotplate stirrers.

The magnetic stirrer with a lifetime warranty:
