

MAGSLE M-1

NEXT GENERATION STIRRING

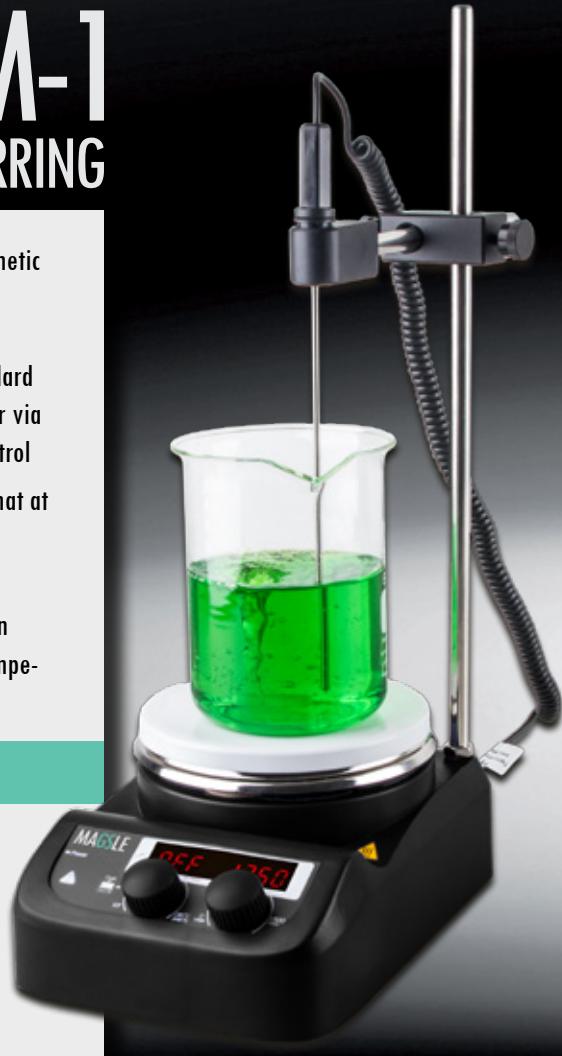

The brand new MAGSLE M-1 is a unique magnetic stirrer of the budget level.

It offers many important features of a standard instrument, such as the control of parameter via LED-Display, the integrated temperature control and the sealed construction (IP42). And all that at a very attractive and competitive price.

The integrated temperature control allows an exact regulation of the sample when the temperature sensor PT-1000 is connected.

Quality features:

- LED-Display for accurate regulation of speed and temperature
- digital controlled speed and temperature
- Indicator for hot surface, even when the stirrer is shut-off
- connector for PT-1000
- integrated temperature control function
- compact construction, sealed housing (IP42)
- 2 years warranty

Technical data:

Spannung (V)	200-240
Max. mixing amount (l H ₂ O)	3
Stirring bar (max. in mm)	50
Stirring speed (rpm)	100-1500
Display accuracy(rpm)	10
Display	LED
Stirring plate (mm)	Ø 135 ceramic coated
Temperature range (°C)	RT-280
Adjustment accuracy (°C)	1
Regulation accuracy (°C)	±2
Heat output (W)	500
Safety temperature (°C)	320
Dimensions (BxTxH, mm)	155x215x100
Safety class	IP 42
Weight (kgs)	1,4
